

## NESDAnet User Information

You should have received a username and password to the NESDAnet archives when you joined NESDA.

Generally, it will be exactly the same as your access info for NESDA Members Only.

If you have changed your password without contacting the office, we won't be able to tell you what it is. Please contact us and ask that it be reset to the original password.

Please try this username and password combination exactly as it was supplied to you and be sure you are typing the characters correctly. It is case sensitive.

If you are unable to access NESDAnet with this information, please contact the NESDA office by email to [webmaster@nesda.com](mailto:webmaster@nesda.com) or phone 817-921-9061 ext. 115. The NESDA office is open 8-5 weekdays, closed weekends and recognized holidays.

To change settings on your NESDAnet account, please log in and then click on **Subscriber's Corner**. Look for the list you wish to modify, then click on the [Settings] link by that name.

If you do not currently see the names of the lists you may access when you log in, click on the **Preferences** link in the upper right hand corner of your screen. Look for the **Start Page** text on the left, then click on the drop-down to the right and select **Subscriber's Corner**.

Then click the **Update** button in the lower right-hand corner, log out, and log back in again. You should now see **Subscriber's Corner** immediately upon logging in.
